

PRODUCT DATA SHEET

CUT-7030 WR

Lubrall Cut 7030 WR is an economical grade semi-synthetic metalworking fluid designed for industrial use. It features a low oil content, making it cost-effective while still providing reliable performance. This fluid is ideal for various metalworking applications, offering good lubrication and cooling properties to extend tool life and improve surface finish. One of its key features is its economical price, making it an attractive. Lubrall Cut 7030 WR is formulated to be long-lasting, which can help reduce the frequency of fluid changes, further enhancing its cost-effectiveness. Overall, Lubrall Cut 7030 WR offers a balance of performance, longevity, and affordability, making it a practical choice for many metalworking applications.

Advantage-

- 1) **Cost-Effective:** As an economical grade fluid, Lubrall Cut 7030 WR provides a balance between performance and cost. Its affordability makes it an attractive option for businesses looking to reduce operational expenses without compromising on quality.
- 2) **Low Oil Content:** Despite its low oil content, Lubrall Cut 7030 WR still offers good lubrication and cooling properties. This not only helps in extending tool life but also improves surface finish, contributing to overall operational efficiency.
- 3) **Longevity:** The formulation of Lubrall Cut 7030 WR is designed for longevity, which means fewer fluid changes are required. This can lead to savings in terms of both time and money, as less fluid is needed over the long term
- 4) **Performance:** Despite its economical pricing, Lubrall Cut 7030 WR delivers reliable performance. It helps improve machining processes by reducing friction and heat, leading to enhanced productivity and product quality.

Specification

1	Colour	Light Yellow
2	Density @29	0.98-1.0
3	Viscosity	18-22 Cst
4	PH of 5% Emulsion	9.5-9.7
5	Corrosion Test	Pass
6	Foaming Test	Settle within 20 second
7	Refractive Factor	2.3

Packing: - 210 Liter drum.

NON-WARRANTY: The information in this bulletin is based on our experience and tests which we believe to be reliable, but offer no guarantee and accept no responsibility for operations not under our direct control.
