

PRODUCT DATA SHEET

HoneMaster-07

(Medium Viscosity Honing/Cutting oil)

Lubrall's HoneMaster-07 is a high-quality honing oil designed for precision honing operations. It features a medium viscosity, ensuring optimal lubrication while maintaining a low evaporation rate. This combination helps to improve tool life, surface finish, and overall machining efficiency..

Advantages:

Key features of Lubrall HoneMaster-07 include:

- 1) **Medium Viscosity:** The medium viscosity of HoneMaster-07 allows it to flow smoothly and evenly over the honing stones and workpiece, providing consistent lubrication and helping to achieve precise results.
- 2) **Low Evaporation Rate:** HoneMaster-07 has a very low evaporation rate, ensuring that the oil remains effective for extended periods. This reduces the need for frequent replenishment, saving time and cost.
- 3) **Refined Mineral Oil:** The use of refined mineral oil ensures high purity and quality, minimizing the risk of contaminants that could affect the honing process or the quality of the finished workpiece.
- 4) **Good Flushing Properties:** HoneMaster-07 is formulated with additives that provide good flushing properties, helping to remove debris and contaminants from the honing area. This helps to maintain a clean cutting environment and prevent surface defects.
- 5) **Environmentally Friendly:** Like other Lubrall products, HoneMaster-07 is formulated with environmentally friendly ingredients, making it safe for use and disposal. Overall, Lubrall's HoneMaster-07 honing oil is an excellent choice for precision honing operations that require a medium viscosity oil with a very low evaporation rate and good flushing properties

Specification

1	Colour	Red Colour
2	Density @29	0.810-0.840
3	Viscosity	8-12 Cst
4	Flash Point	>160⁰ C
5	Corrosion Test	Still – Nill Aluminium -Nill
6	EP additive	Added
7	Easter	Absent

NON-WARRANTY: The information in this bulletin is based on our experience and tests which we believe to be reliable, but offer no guarantee and accept no responsibility for operations not under our direct control.

Packing: - 210 Liter drum.
